

Lazy Daisy Stitch

This simple stitch creates a lovely, graphic flower that adds a handmade touch to any felt craft project or embroidery design.

The basic flower is made up of chain stitches arranged in a circle, a short row of running stitches for the stem, two long chain stitches as leaves and a central French knot. These beginner-friendly stitches make the Lazy Daisy perfect for modern hand embroidery, felt sewing kits, and decorative stitching on my designs.

Step 1 – Draw a circle and mark out petals, a stem and leaves using a dissoluble fabric pen.

Step 2 – Using a chain stitch work your way around the circle.

Step 3 – Start at bottom and create the leaves.

Step 4 – Finish by sewing the stem using a running stitch.

Step 5 – Add a French Knot at the centre.

Step 6 – Remove any fabric pen marks to reveal the finished daisy flower.
